Developing a Spiritually Informed Approach To Psychotherapy and Counseling offers the participant a unique program for personal and professional growth in a community of experienced teachers and like-minded fellow students.

Teaching Philosophy:

The Association's teaching philosophy is based on the belief that spirituality is necessary for psychological healing. ASP is dedicated to deepening our students' inner spiritual awareness to enable healing to take place for both themselves and the patients they work with. We believe that a spiritually informed therapy, while working with common presenting problems, can be maximally beneficial for the individuals who seek our help. ASP is committed to helping students work in a more effective, fulfilling way with individuals, couples, families and groups.

Who should take this Course?

We invite analysts, psychotherapists, counselors, and other psycho dynamically oriented healing arts practitioners and ministers as well as individuals who have a spiritual and psychodynamic orientation to register for these programs.

General Learning Objectives:

- Provide a spiritual perspective on working with psychological issues such as depression, anxiety, addiction, somatic problems and relationships, as well as casting "spiritual light" upon them.
- Develop "spiritually-informed therapists" by providing sound theoretical bases and learning experiences that will broaden perspective and increase skills in diagnosis, treatment, therapeutic presence and listening.
- Provide opportunity for psycho-spiritual growth as it relates to personal and professional development
- Offer a professional community.

Teaching methods will include

- Relevant meditations
- Relevant Supportive Psycho-spiritual Readings
- Didactic presentation of theory, method and technique
- Case discussions
- Experiential exercises including practice therapy sessions
- Process papers including the development of personal perspectives on spiritually informed therapy.
- Project and Class Presentation.
